LINCOLN BUREAU OF THE OMAHA BEE,)

1029 P STREET, LINCOLN, Dec. 7. "The world is full of frauds," remarked a passer by this morning, "but of all the frauds, I believe Dr. Billings to be among the greatest." The remark caused THE BEE representative to stop short, for the speaker was unusually earnest in his manner. "Why so?" he inquired. "Why, this ape of Pasteur, as' you newspaper men dub him, went into the penitentiary herd of hogs a few weeks ago and moculated over seventy of a herd of 400 head, and there isn't a well hog in the lot, and the most of them are dead. Isn't that evidence enough to brand him a fraud of the first water. It has been but a few weeks since he announced publicly that he had discovered the germ of the disease and was ready to treat it successfully. The public gave him confidence because he was backed by the state university. I tell you, it is about time to have the inspector removed and the experimental station with him. And I see by one of the city papers this morning that he is editorially endorsed as having been remarkably successful in his investigations. Why, it can be proven that every herd of hogs that he and his aides have in-oculated has been killed off. In the face of this fact such endorsement adds insult to indury. The same paper goes on to state that Billings has been largely quoted by the sci-entific world as an authority on hog diseases. cathle world as an authority on hog diseases. Now, it is my opinion, that if his investigations are even called scientific, the common sense world will not respect science very long. The fact of the matter is, the known position of Dr. Billings, gave his so-called book a place among letters, and if the university continues to sustain him it will soon become as useless for good as the large he become as useless for good as the hogs he has killed by inoculation. You can say, also, that I believe the day is at hand that Chancellor Manatt will beyindicated in a great

Late reports from fields where Drs. Billings and Thomas have operated are very flamaging. Wherever herds of hogs were inoculated the disease is raging in the most inoculated the disease is raging in the most virulent form. Hogs are dying by the score and especially in Butler county. It would be very imprudent for Billings to return to the scene of any of his work. It has been suggested that Dr. Thomas did most of the inoculating, and that the fatality in the herds operated upon might be due to an improper use of virus. This suggestion, of course, came from some of Billings' friends. That there might be no injustice done The Beg representative has investigated the matter very carefully. In the herd at the penitenery carefully. In the herd at the peniten-ary Billings alone used the knife and applied the vaccine matter. A very large percent of the herd is dead and the rest are in a fair way to die. This fact tells the story sufficiently well. It is said upon very good authority that 87 out of every hundred hogs "vaccinated for cholera" have died. Yet there is a spirit in some quarters to excuse this quack or self-styled scientist. But the feeling is becoming intense that he has imposed upon the public long enough, and if the board of regents don't suppress him there will be a sharper investigation on their hands than the late muddle, in which this fraud figured conspicuously. It is suggested in street talks that injustice has been done that ought to be righted, and that the peremptory dismissal of Billings would go a long way toward righting it.

emptory dismissal of Billings would go a long way toward righting it.

JUDICIAL JOTTINGS.

In the district court to-day the jury in the case of Benadon vs Sheedy brought in a verdlet in favor of the plaintiff for \$40.48. A motion for a new trial wis made and overruled, to which the defendant excepted.

The case of Edward P. Child vs A. P. S. Stewart was next called, and it occupied the attention of the court the rest of the day. This cause, it is said, is indirectly the outgrowth of the Dawson will case.

growth of the Dawson will case.

The St. Paul M. E. church filed a petition

to-day for permission to place a mortgage of \$2,000 on the property of the church. In the case of Uhrmann vs Uhrmann, it appearing that a proper service had not been made upon the defendant, the default here-tofore taken was set aside, all proceedings reacted and the cause continued.

Grace O'Brien vs Michael O'Brien. Trial had and divorce granted as per prayer of

plaintiff's petition. Judge Chapman concluded his work on the bench here to-day and left for Plattsmouth on the afternoon train, where he will sit the rost of the term. Judge Field will preside

Harry Hall was thrown from his buggy this morning in making too sharp a turn, and severely hurt. It was thought for a time that the poung man's back had been broken by the fall. His hip, however, proved to be dislocated and it will be several days before he will be able for duty.

Common Sense

should be used in attempting to cure that very disagreeable disease, catarrh. A catarrh originates in impurities in the blood, local applications can do no no permanent good. The common-sense method of treatment is to purify the blood, and for this purpose there is no preparation superior to Hood's Sar-saparilla. That this peculiar medicine does cure catarrh is shown by the many testimonials from people who have found relief upon using it when all others had failed. A book containing statements of cures sent on receipt of two-cent stamp, by C. I. HOOD & CO.

A Medical College. Dr. Moore says that it is now a question of putting more money into the Omaha Medical college or abandoning the enterprise. The Institution is not equal to the patronage it has enjoyed, and at least \$40,000 would be required to make it such as its friends desire it

should be. Some of the directors dislike to put this money in the enterprise fear-ing lest, in a couple of years at the furthest, they would be compelled to the furthest, they would be compelled to compete with a free college in the state university at Lincoln. At the present, the regents of the latter place do not seem dis-posed to open a medical department, and are yet unprepared to accept under certain con-ditions the offer of the Omaha Medical col-lege, made them by certain directors of the latter institution. In a few days there will be a meeting of the latter board to ascertain whether any steps should be taken to aid the regents of the university to secure an en-larged appropriation from the next legisla-ture for the medical department referred to.

Hood's Sarsaparilla cures catarrh by expelling impurity from the blood, which is the cause of the complaint. Give it a trial.

Sixth Ward Non-Partisan Club. The Sixth Ward Non-partisan club held

their regular meeting at their nall Thursday night, and decided make the organization permanent. A committee was appointed to secure a lot for the purpose of building a hall. It was decided to introduce recitations, declamations and other intellectual entertainment for the winter. Que stions of general interest to the club and their friends will be introduced at the next meeting. As this club has already developed considerable ability, much more is to be expected. All property holders and taxpayers of Lowe's and Lindtay's additions, Orchard Hill and Prospect Place are cordially invited to become members. The club meets every Thursday evening at Franklin school, Thirty-fifth and Franklin streets.

G. M. Nattinger's Resignation. On next Monday night there will be a neeting of the directors of the Omaha board of trade, at which it is expected G. M. Nattinger, secretary of the organization, will tender his resignation. As already an-nounced in The Bee, Mr. Nattinger has bea member of the firm of Clark, Woodman & Co., recently organized for the conducting of a grain and seed business. Mr. Nattinger has been secretary of the board for many years, and has seen it rise from a very indifferent organization to one possessed of resources and with a promising future. It is not determined who will be his successor. The selection will not be made very the The selection will not be made until the second week in January, when the new di-rectors of the board will meet and elect their president and secretary. A Nebraska Sod House.

The Loup City sod house reach Omaha yesterday morning and will be photographed before going further east. It is built on a flat car and is 8x16 feet, with the walls 6 feet high. The interior is filled with a sufficient quantity of Sherman county vegetables to supply the president's household until next March, while the interior is decorated with paintings emblematic of what protection has done for Nebraska. One shows the emigrant as he was in 1860, fighting his way through bands of hostile Indians, while the companion piece shows the railways of to-day. The house is being carried free by the Union Pacific and Rock Island railways, and is in charge of W. J. Wilber, of Loup City.

DRUNKENNESS

Or the Liquor Habit, Positively Cured by Administering Dr. Haines' Golden Specific.

it can be given in a cup of coffee or tea with sut the knowledge of the person taking it; shapintely harmless, and will effect a permanent and apecly cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkerds have been made temperate men who have taken Golden Receille in their coffee without their knowledge and to day believe they quit drinking of their own free will. It never fulls. The system once impresented with the Specific, it becomes an utter impossibility for the liquor appetite to exist.
